

REMARKS

This is in response to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures dated October 22, 2004.

The Notice indicates that the content of the "Sequence Listing" in computer readable form (CRF) does not comply with the requirements of 37 CFR § 1.822 and/or 1.823. Specifically, the Raw Sequence Listing sheet indicates that an explanation for source of genetic material under "<213> ORGANISM" (line 22) and a valid response under "<223> OTHER INFORMATION" (line 25) are required.

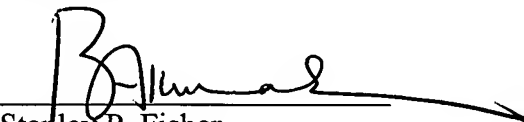

In response Applicant submits herewith a substitute copy of the "Sequence Listing" in a paper form and a copy of the computer readable form consisting of SEQ ID NOS: 1-8 in accordance with the requirements of 37 CFR §§ 1.821 through 1.825.

STATEMENT UNDER 37 CFR § 1.825

Applicant hereby states that the copy in computer readable form is the same as the substitute copy of the "Sequence Listing". Applicant also states that the contents of the substitute copy of the "Sequence Listing" submitted herewith is fully supported by the application as filed (see, for example, pages 11-14) and no new matter is introduced by this submission.

Respectfully submitted,

January 24, 2005
